Lemons to Lemonade

The "Bird-Flu" is Actually the 1918 "Pandemic Virus" Weaponized!!

The so-called "Bird-Flu" pandemic hype began with an announcement by the United Nations, September, 2005 which declared that "the world is overdue for a major influenza 'pandemic' that will kill hundreds of millions of people". Immediately after this "false flag" announcement, George W. Bush's new head of the HHS, Mike Leavitt, was endowed with an incredible \$3.3 BILLION fund in which to prepare each state for the "inevitable" event. What has not been examined in the mainstream press, however, is the actual timeline leading up to the amazing U.N. declaration. **TIMELINE:**

1997—Dr. Jeffrey Taubenberger of the U.S. Institute of Pathology, Ft. Detrick

MD, receives funding for a highly controversial project—to use a military super-computer to analyze and reconstruct the DNA genome sequencing of the extremely lethal 1918 pandemic virus. Taubenberger declares publicly that his work is to study the killer virus in order to prevent another pandemic. The truth is, however, this akin to recreating Tyrannosaurs to study their bite patterns on human torsos. The fact that this research was conducted by a military BIOWEAPONS lab is even more questionable!! Spring, 2005—Taubenberger's team successfully recreates the virus' gene sequence and permanently binds it human plas-mid cells. The previously

extinct virus is now available for "study" - but it also is now available as a very potent bio-weapon—arguably more deadly than anthrax. Sept. 2005 — U.N. Declares worldwide "pandemic" is overdue. November, 2005, Mike Leavitt begins "pandemic flu" planning by pushing the "Model State Emergency Health Powers Act" (cont.)

Blue Diamond - All natural Immune System Booster for Cold/Flu Season

Mother Earth Minerals is excited to announce the launch of "BLUE DIAMOND" all-natural immune system booster. This product is made from a yeast culture known as *Saccharomyces cerevisiae* which is cultivated in organic, non-

GMO crops of corn, wheat and rye middling. The product is extremely rich in B-complex vitamins. The inactive yeast cellular walls cause a direct immune response when consumed. Studies show immunoglobulin A (IgA) levels in

the mucous membranes increase by as much as 500% with regular consumption. This fantastic product tastes similar to wheat germ and can be added to yogurt, breakfast cereals, and smoothies for a strong defense against colds and flu.

(cont.) Bird-Flu Hype Timeline EXPOSED!!

In every state. The MSEHPA calls for extremely draconian measures to be enacted when (not if) the “pandemic virus” is detected in America. MSEHPA provisions include FORCED VACCINATION OF UNTESTED ‘BIRD-FLU’ VACCINES, Martial Law, City and County-Wide forced quarantines, suspension of Habeus Corpus, and forfeiture of homes and vehicles at the state’s sole discretion.

FEBRUARY—2007. Mike Leavitt orders 350 million “bird-flu” vaccines from Rockefeller’s Sanofi-Pasteur in France.

AUGUST, 2008 — 500 million “pandemic” vaccines are produced and available—shelf life—6 months.

SEPTEMBER, 2008—Law enforcement and military personnel are informed that vaccination for the “bird-flu” is now MANDATORY.

OCTOBER, 2008 — The Bush administration reports to the Associated Press that the “Bird Flu” vaccine will never be sold to rogue nations such as Iran, Syria, N. Korea and Cuba - because of the VERY HIGH POSSIBILITY the vaccine could be used as a BIOLOGICAL WEAPON!!

If this is such a potentially deadly virus, why use it as a vaccine??

Here are the important facts to understand.

First, the “H5N1” bird virus has never in all human history turned “pandemic”

and without human help, it never will.

Second, the 1918 Pandemic was caused by contaminated TYPHUS FEVER vaccines forced into the veins of 500,000 U.S. and British soldiers during WW I. Contrary to declarations by Leavitt and the U.N.—the 1918 Pandemic was absolutely NOT a result of a naturally occurring virus mutation.

Third: the medical “scientists” of 1918 didn’t even know that viruses existed.

They wrongly believed every disease was caused by bacteria. They called it “influenza” because they didn’t know what else to label it! FOR THE COMPLETE STORY, CALL M.E.M. AND ORDER DR. OTT’S DVD PRESENTATION ON THE BIRD FLU!!

Photon Sound Beam — Energy Device Stimulates the Blood and Creates InVivos Ozonation for Powerful Healing Energy.

One of the greatest inventors in American history has to be one Nicola Tesla—the man who gave us alternating electrical currents (A.C. power). In 1912, Tesla created a powerful device he called the “violet ray beam” machine. It utilized argon noble gas and a coil to create a purple-blue energy field that exhib-

ited remarkable healing and restorative qualities when applied to human cells and injured tissues. In 1992, modern electrical engineer Ed Skilling took Tesla’s original model and named it the “Photon Sound Beam”. Tests conducted on this remarkable device has proven that it stimulates the water and fluid in

human tissues and bone, creating clouds of healing “free electrons” as well as concentrating oxygen in the form of O₃—or Ozone. The result is rapidly increased healing of acute injury, anti-bacterial, and pain relief. As oxygen levels increase, so does health and vitality of the cell. Call 866-989-9876 for pricing.

Properties, and Application of Boswellia-Sacra, Hojari Frankincense and Frankincense Gel

1. Most commonly used externally directly on the skin. Apply to joints and back for pain relief.

2. Properties of the oil and gel: Anti-inflammatory, anti-oxidant, antiseptic, astringent, cytophylactic (repairs skin and cells).

3. The pure oil can be heated and the vapors inhaled for

relaxation and aromatherapy that is unmatched by any other product.

4. May enhance the removal of toxins and acidic waste from the cells.

5. Place a few drops in distilled water for internal use, or place a single drop in herb tea.

6. Improves inter-cellular communication throughout the body, which is

vitaly important in healing disease.

7. Increases oxygen and nutrient transportation and absorption throughout the body up to 600%

8. Empowers cells and tissues to repair damage by generating increased energy and power. Gel works great on toenail fungus!

9. Has a higher resonance frequency which is designed to lift the mind and body to a higher vibratory rate! This is why Hojari Frankincense was used extensively in ancient temples in the Middle East.

True Ott, PhD in December, 1998. All intelligent life on Planet Earth is governed, either for good or evil, by electromagnetic impulses on the cellular level. When Life gives you Lemons, it's Time For Lemonade!!

By A. True Ott, PhD

When you were born, you cried and the world rejoiced! May you live your life so that when you die, the world cries and you rejoice! -Ancient Cherokee Indian Proverb.

Nearly a century ago, a Canadian nurse named Rene Caisse worked in a hospice where she did her best to keep terminal cancer patients as comfortable as possible until their spirit departed their physical body. One day as she was walking to the hospice, an elderly Ojibway Indian engaged her in conversation. He pointed to a fairly common 'weed' and told her that this "would heal the sick cancer patients." He was very insistent, telling

KNOWLEDGE IS POWER

Nurse Caisse exactly how to prepare the 'weed' with other common herbs into a powerful tea, which he promised would be an effective remedy for those suffering, and dying in the hospice. Nurse Caisse followed the Ojibway's instructions, and prepared the tea. She then shared what she had been told with a few of her more desperate terminal cancer patients. Since they already had one foot in the grave, and little to lose, they agreed to give the 'remedy' a try. The results were quick in coming. A number of very ill 'terminal' patients began to improve. Amazingly, a few even recovered their health enough

that they left the hospice, never to return. It is well documented that more than just a few of these deathbed cancer patients actually outlived Nurse Caisse. Nobody was more pleasantly surprised with the results of the herb tea than Rene Caisse. She reversed the letters in her last name, and named the new treatment Essiac. Was Essiac 'tea' used with success? The evidence says yes, but why? Spectro-analysis of Sheep Sorrel and Turkish Rhubarb, two of the primary Essiac herbs show them to be naturally high in the platinum group metals, Iridium and Rhodium. These two transition group elements are found in Ultimatium—in much higher and more bio-available concentrations than found in 'modern' versions of Rene Caisse's famous tea.
