Maxa-Min The New Mineral Product Line

Mother Earth Minerals has been a leader in the production of top of the line health supplements for over ten years. Our original line of minerals has helped hundreds of thousands of people obtain and maintain better health, enabling them to achieve a higher standard of living. As a company, one of our main identifying goals was to be the key to health and vitality, and to further enhance and achieve this, we are proud to introduce a new line of all-in-one mineral combinations, collectively called Maxa-Min.

The Maxa-Min product line was designed to work hand in hand with the original minerals to further the ease and convenience of making sure everyone is achieving

optimum mineral consumption. Maxa-Min products come in once a day recommended dosage amount and enough quantity for a thirty day supply per bottle. Never before, has high quality mineral usage been so easy!

The Maxa-Min line consists of five unique products formulated specifically for convenient mineral supplementation.

First and second is **Healthy Man** and **Healthy Woman**. They each are a comprehensive combination of the most

important dietary minerals required for men's and women's optimal health. Between them they contain Calcium, Magnesium, Potassium, Zinc, Selenium, Iron, Copper, Molybdenum, Manganese, Chromium, Vanadium, and Boron.

Third, we have **Immunity**. This formula contains an ideal balance of key immune support minerals that enhance the body's natural defenses and immune functions. The minerals in Immunity are Zinc, Selenium, Copper, Manganese, Molybdenum, and Germanium.

The Next two Products revealed on Page 2.

The Natural Health Movement Winning the Battle

It's refreshing to see some of the victories in our society when it comes to what we eat and our health. It often seems like a no win situation going against giant corporations. Yet we as a collective group are making

significant strides in this battle.

Just a few years ago it would be unheard of to see Hunt's Ketchup proclaiming right on the bottle: "NO High Fructose Corn Syrup!" But there it is now. There are victories like this all

over, and hopefully this is just the beginning. Someday in the near future maybe we will no longer see MSG, Trans Fats, and Aspartame in our food. It is up to us to send the message that we don't want it. Keep up the good fight!

More on the Maxa-Min Product Line

Maximum Convenience, Maximum Benefit

The Fourth product in the Maxa-Min line is **Blood Sugar Aid**. It contains a comprehensive combination of the most important dietary minerals that play a role in blood sugar regulation. It is specifically designed to address the mineral requirements that support the mediation of insulin release and activity to help promote healthy sugar balance for enhanced health and vitality. The minerals in Blood Sugar Aid are Zinc, Manganese, Chromium, and Vanadium.

Fifth, we have **Fulvic Minerals Complete**. Fulvic mineral complexes are the world's finest electrolyte, which improves energy function, increases

assimilation, stimulates metabolism, restores electrochemical balance, reduces high blood pressure, enhances nutrients, and helps rebuild the immune system. Fulvic Minerals are a natural extract from ancient plant deposit that was created 75 million years ago in the upper cretaceous period. They consist of an immense arsenal and array of naturally occurring phytochemicals, biochemicals, supercharged antioxidants, free-radical scavengers, super oxide dismutase, nutrients, enzymes, hormones, amino acids, antibiotics, antiviral, and antifungals.

These five products make up the Maxa-Min Combination Minerals line.

They are ideal for their convenience, so those with busy life styles and who are unable to find the time to consistently use our other supplements will find that the Maxa-Min line of products will fit into any schedule.

They are also great to use along with the original Mother Earth Minerals for those days when time is short and you would normally have to bypass using them. This situation will now be a thing of the past. Never before has supplementation of high quality angstrom minerals been easier.

The Original Mother Earth Minerals

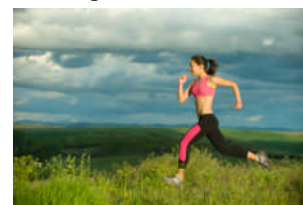

As Good and Important as Ever

The ease and convenience of Maxa-Min Minerals are excellent, and for health maintenance and convenience they can't be beat. That being said, some minerals are unable to be combined, like Silver, and for specific mineral deficiencies and disease states the individual minerals are ideal for supplementation.

In the homeopathic theory of Avogadro's number - which states that

amazingly, a fraction of an element, if isolated in a totally pure solute, can be more potent than a much larger amount of the same element when bound with other ions of hydrogen forming acids. Because of this, the original line of Mother Earth Minerals is essential for those with a diseased state and for supplementation for anyone who may want or need the benefit of a specific element.

For over ten years the original twenty Minerals along with Indium and Ultimatum have been our flagship products with proven success in the battle for health and personal wellness.

Food Companies Switching From MSG to Yeast Extract

With the public awareness of the negative side effects of MSG getting more common and mainstream, many food companies are starting to remove it from their products. For example, many soup companies are now putting "No MSG" on their labels. This is a great thing and hopefully more companies will go this route. Yet

there are those in the food industry that are more misleading with their products. Many food companies are switching from MSG to yeast extract, which is a "hidden" form of MSG that's used for the same purpose. If you are avoiding foods made with MSG, be sure to avoid all foods made with yeast extract, too.

The truth behind yeast extract will hopefully soon come to the forefront of public knowledge, as it has a much less 'threatening' name associated with it, and most people will not think twice about it even after reading it on an ingredient panel on a food label.

Mother Earth Minerals Product Highlights

SuperFuel

SuperFuel is easily the most nutrient-dense green super food available on the supplement market. With concentrated "essences" from the 12 most potent SuperFoods on the planet, the balanced blend of essential probiotics (friendly bacteria), organic sprouts, proven antioxidants, and essential digestive and cellular enzymes makes this a truly complete and balanced formulation. SuperFuel provides all the vitamins from A through K in an all natural vegetable base. The formulation provided plant based enzymes protease, amylase, lipase, lactase, and much more.

Vitamin B12 Strips

Essential Source B12 Strips have helped to improve the lives of countless people with B12 deficiency. One reason is the superior rate of absorption gained by our strip technology. Some benefits of Vitamin B12 Strips:

- Increase Energy
- Promote Energy
- Increase Circulation
- Reduce Stress
- Sublingual and Buccal Absorption
- Most Bio-Available form of B12
- Most Convenient Form Ever
- Freshens Your Breath
- Naturally Sweetened
- Vegetarian and Gluten Free

Chromium

It takes a Chromium molecule to burn fat and properly metabolize caloric intake, and most people are highly deficient in Chromium. The body requires pure Chromium ions to create lean muscle, so if you wish to more efficiently build your body's muscle mass, it is vitally important to give your body pure elemental chromium molecules as you workout. Chromium deficiencies result in low blood sugar (hypoglycemia), pre-diabetes, and of course diabetes itself.

The Health Benefits of Germanium

An excerpt from Ross, R.Ph. Pelton, Lee Overholser. ALTERNATIVES IN CANCER THERAPY.

Nutritionally, the natural element germanium has been known to aid in the prevention of cancer and AIDS. Certain compounds of germanium have toxic effects against certain bacteria. In its organic form, germanium is being hailed as one of the greatest new developments in the nutritional treatment of cancer. The estimated daily intake for germanium is 1 mg. Germanium has

been reported to improve the immune system, boost the body's oxygen supply, make a person feel more energetic, and destroy damaging free radicals. Germanium also protects against radiation. Organic germanium is a biological-response modifier. This means it enables the body to change its response to tumors, which has therapeutic benefits. Germanium does not directly

attack cancer cells, but stimulates the body's immune system, making it effective in the treatment of cancer as well as other degenerative diseases.

Mother Earth Minerals Inc. (MEM) provides information and nutritional counseling to a growing number of individuals seeking answers to health care puzzles, and was founded by A. True Ott, PhD, in December, 1998. All intelligent life on Planet Earth is governed, either for good or evil, by electromagnetic impulses on the cellular level. The great healers throughout recorded history have had one thing in common, they understood how these impulses operate and were able to successfully harness them for the benefit of mankind. MEM is dedicated to the positive exploration and public dissemination of this vital, lost knowledge. Remember, MEM's the WORD!

When Life gives you Lemons, it's Time For Lemonade!! By A. True Ott, PhD

Last fall, the fear-mongers in the CDC and World Health Organization wanted everyone in America to rush and get their "FREE" influenza shots. We were in the midst of a massively dangerous "world pandemic" after all. Just as I reported in prior newsletters, the "Pandemic" was a ploy and a complete man-made hoax. More people have died and become disabled worldwide from the SWINE/BIRD FLU VACCINE than from the "disease" itself— which I explained was and is a lab-created "designer virus" developed in the halls of Ft. Detrick Maryland by Dr. Jeff Taubenberger and others merely to sell patented vaccines.

While the world was given a very large and very sour lemon in the Pandemic Hoax — the lemonade in all of this is simply to learn from the experience and move forward in increased wisdom. Do not believe everything the government officials tell you. Remember that they have a racket to protect, and will only keep their cash registers ringing if people are chronically ill or chronically STUPID! Do NOT have poisons such as vaccines laden with mercury and neurotoxic adjuvants shot into your blood! Stand up for your right to CHOOSE and to be EDUCATED. Do not EVER give up your God-Given Rights of Self-Determination.

Unfortunately, more strange "vaccines" will be foisted upon the gullible public in the near future. The Battle is far from over, especially with ObamaCare Socialized Medicine poised to begin next year. As tens of thousands of young girls are permanently damaged by the Gardasil vaccine generated lies and mass insanity, Big Pharma is now targeting young boys and young men for the same "cancer preventive measure" — i.e. a MALE HPV VACCINE. Could someone please tell me how HPV can cause cervical cancer in a man or a boy?? Has anyone reading this newsletter ever even heard of a man or a boy contracting cervical cancer?? Oh yes, then, by all means — let's make sure the young boys are given an HPV shot series as well as the young girls!!!!
